THE LIGHTEST. THE STRONGEST. THE ORIGINAL.

Alcoa® Wheels stands as the premier brand of aluminium wheels for the global heavy transport industry. Renowned for innovation, Alcoa® Wheels introduced the first forged aluminium truck wheel in 1948, setting a benchmark in the industry.

Today, the brand continues to lead with its commitment to quality, durability, and performance, making it the preferred choice for heavy-duty transportation worldwide.

Alcoa UltraONE® wheels are forged from MagnaForce alloy for a lighter wheel that is 17% stronger than the current industry standard.

17.5" Polished Aluminium Wheels

Key	Item Number	Finish Type	Wheel Size	Stud & Hole size	PCD & Offset (mm)	Weight	Max Load (kg)
▲	663133	Mirror Polish	17.5" x 6.6"	6 Stud JIS	222 PCD - 135 Offset	11.3Kg	1750Kg

Alcoa® Dura-Bright® Wheels

What Happens on the Road, Stays on the Road.

Trucks running on patented Dura-Bright® Wheels don't sit still for long. That's because the durable, no polish, easy maintenance surface treatment puts them back on the road faster, making it easier than ever to have a great looking truck. Great looks made simple.

Drive. Rinse. Repeat.

Discover the easy maintenance way to bright, shiny wheels that stay that way. Because the Dura-Bright® Surface Treatment penetrates the aluminum, these wheels keep their shine, even after hundreds of washes and thousands of miles without polishing.

19.5" Dura-Bright Wheels

Key	Item Number	Finish Type	Wheel Size	Stud & Hole size	PCD & Offset (mm)	Weight	Max Load (kg)
