NEW RELEASE

- Two torches in one
- Increased light output
- Strong built-in magnet
- Impact and shock resistant
- Charging via USB-C

SCANGRIP® UNIPEN FOR LIFE INSPECTION LAMP

UNIPEN is an energy-efficient, USB-C rechargeable, dual light mini inspection lamp with a top spot light, perfect to always have "on hand".

UNIPEN main light offers an adjustable output up to 150 lumen. The top spotlight provides a focused beam of 75 lumen — ideal when you need a concentrated light source.

Designed to perform consistently in tough work environments, UNIPEN is durable and resistant to water and dust (IP65). It features a built-in magnet for easy, hands-free positioning and a pocket clip for convenient carrying. In addition, the small flexible bracket enables the lamp head to tilt up to 180 degrees.

A user-friendly battery indicator keeps you informed about the battery level, and charging is via convenient USB-C.

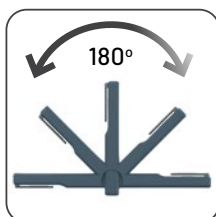

NOTE: This lamp replaces 035420 UNIPEN LED Inspection Lamp.
