

Super Seal Connectors

Super seal connector housings were developed to satisfy increasing requirements for safety and reliability in the field of electrical connections. The connectors can be connected to existing components and used with the equipment presently in use in the automotive industry (sensors, oil pressure sensors, water temperature monitoring circuits, etc.).

- IP 67 (Protection against dust and temporary water immersion)
- Robust and reliable contact. Max. current 14A.
- Prefabricated secondary lock ensures that the terminal is plugged into the housing correctly and prevents slipping out of the connector.

For 'P' and 'S' versions only the bare connector is supplied. Select appropriate seals and terminals to suit. Plug and socket kits come complete with terminals and seals.

P/N 4982-P

		2 POLE PLUG AND SOCKET	
Part Number		4982 (Kit)	PLUG AND SOCKET
		4982-P (Pack of 4)	PLUG
		4982-S (Pack of 4)	SOCKET
Spare Part	9,4982.05	Rubber sealing boot – cable support
