

# Sequential Road Hazard Warning Lights

8 Pack Rechargeable SKU: 7536

Stay Safe on the Road with Our Premium Road Hazard Warning Lights!

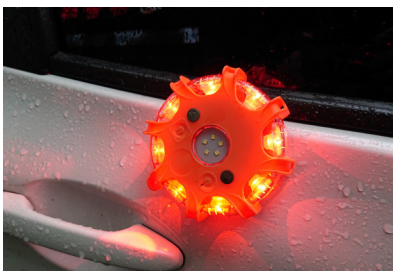

Ensure your safety and the safety of others with our road hazard warning lights. Designed for maximum visibility, these lights are perfect for alerting drivers to potential dangers ahead, whether it's a breakdown, construction zone, or accident scene. With their bright, flashing LEDs and durable, weather-resistant construction, our warning lights are built to perform. Easy to deploy and highly effective, they provide peace of mind by significantly reducing the risk of accidents. Don't compromise on safety, equip your vehicle or workplace with our sequential hazard warning lights that can be changed between Red, Amber and Blue at the push of a button.

Features include a magnetic base that allows you to attach it to metal surfaces, enabling hands-free operation. It comes with a rechargeable case and offers a sequential function. Designed to be compact, it's easy to carry even in your pocket.
