G10044N

18V Cordless Grease Gun - 400gm

October 2020

Model G10044N is an 18 volt battery operated, cordless grease gun suitable for 400gm grease cartridges or bulk grease filling. It comes complete with a plastic carry case, a 240v quick battery charger and a spare extra battery. Capable of developing up to 10,000psi, the G10044N can also deliver up to 80 grams of NLG12 grease per minute.

The gun comes complete with a massive 106cm long high pressure flexible extension and hydraulic coupler to grease those difficult to get to places. The G10044N can pump for up to 35 minutes or 4 x 400gm NLG12 grease cartridges before requiring battery changeover or recharge which takes only 60 minutes.

For heavy duty applications where day in day out greasing is required, the 597F manufactured by Alemite USA is also available.
